

PERSONAL STATEMENT

I am a Lead Designer & UX Design Manager from Los Angeles, currently based in the San Francisco Bay area. A creative at heart, I am self-driven, independent, and passionate about design.

Over the past couple years, I have had the opportunity to create brands and websites for nonprofit organizations, progressive political leaders, and social movement groups dedicated to building a better future for humanity. These projects have helped me discover a passion for working for, and with, humanitarian causes creating a visible impact in our society today. I hope to continue this work and facilitate a change in our world for the better, one pixel at a time.
